

4.8W IP65 Outdoor Strip Light

24V (8mm)

Applications:

Residential and Commercial Applications.

- Highly customizable with cutting points every 50mm.
- Genuine 3M adhesive backing tape for safe and quick installation.
- High CRI>80 ideal for specialized environments which require high colour rendering.
- 120° wide beam angle LED strip.
- Increase the LED lifespan whilst reducing lumen decay by adding either our surface, recessed or corner pure aluminium profiles.
- Safe to use in open areas as the LED strip provides minimal heat and is only 12V and 24V.
- Available in either IP20 or fully encased coated IP65.
- 2/3oz thick PCB for super fast heat dissipation.
- All our LED strips are dimmable when coupled with our wireless dimmer.
- Ideal for commercial/residential applications.
